No.2026-005214

Name: **Alumexx**
Address: **Leerlooierstraat 30**
4871 EN
Etten-Leur Nederland
Date: 03-09-26 Valid until: 03-09-27

With regard to the use of our Aluminium Mobile Scaffolds, we, as the manufacturer, hereby declare the following.
All Aluminium Mobile Scaffolds / Steps / Ladders / Roof Edge Protection / Catwalks / Ladder Jack Scaffolds manufactured by Van den Heuvel Alu Products-ASC satisfy the following 2016-0119 Special work EN 2718, 1298, 2770, 2484-EN 13374-1231-1004-P6.EN-131 VSB guarantee scheme and the production requirements that are drawn up to safeguard the safety of the user, as well as health and safety (Arbo) information sheet AI-21 Mobile

The product will be provided with inspection labels if inspected according to these standards.
The EN standards are supplemented by the harmonisation documents EN 1004 and EN 12811-1 which must be adopted and enforced by every country within the EEC. With this, our products are also subject to and designed according to the CE inspection requirements, which apply to the entire European market.

Standards apply to Aluminium Stages with maximum loading up to 1.5 kN/m^2.
Accordingly, every Aluminium Mobile Scaffold supplied by Van den Heuvel Alu Products-ASC is manufactured in accordance with the requirements that apply in the Netherlands and Belgium. We deliver according to the directives of the VSB, where the VSB tests the directives of the EN standards.
As the manufacturer, we further declare that we bear all responsibility with regard to any consequential damage that ensues from the use of our Aluminium Mobile Scaffolds and Roof Edge Protection, however subject to the provision that assembly and user instructions are followed. We also offer a full 5-year warranty on all our welding work and aluminium alloys that are used in our products.

Our assigned CE code: NAICS: 53249.Sic-Code: 7359/735915 United States of America: 3099 Canada. Federal code 29CFR 1926 Code of Law: OSHIA, NEN 2718, CE- and EN-131, ABOMA report: 70811031701RS.
All our climbing equipment has been subjected to the relevant strength and stability
For use in combination with other manufacturers, we take on full product liability from most reputable scaffolding manufacturers.
Mixing is legally permitted and our product liability insurance provides 100% coverage for this for you as the user. This must be combined with the correct strength and stability calculations and assembly configurations.
